OBSERVATIONS MADE BY HON'BLE CHIEF MINISTER IN THE
REVIEW MEETING ON IMPORTANT ISSUES OF NUAPADA
DISTRICT HELD ON 15.10.2015 THROUGH VIDEO
CONFERENCING

We have two serious issues concerning Nuapada
1. Flouride problem
2. Distress migration

For both these issues we should have both short term and
long term solutions.

Special focus should be given on these two issues. I believe
Collector Nuapada has some interim solution. He can explain
that. Further we must work towards a strategy of “Zero distress
migration”. Both enforcement and empowerment measures
should go hand in hand.

We must plan staff quarter complex in the district head
quarters so as to motivate the staff to stay. This may be
considered for other remote districts as well.

Solar power supply to drinking water sources should be
seriously followed up.

We should expedite Biju Express Way.

We have to also focus on SHGs and more livelihood
interventions.

We should take irrigation projects on war footing basis.
